## REVENUES:

2010 VS 2009: 298.77\% increase from PHP 2.46 Million to PHP 9.79 Million
There is an outstanding increase in revenue growth for the 3rd quarter of 2010 as against the 3 rd quarter of 2009 due to the interest income generated from additional investments in time deposits and other money market placements. Placements were made to BDO, Chinabank and Premiere Bank for an aggregate amount of PHP 1.12 billion as of the end of the 3rd quarter 2010. There is a minimal decrease with respect to interest rates having an average rate of $4.25 \%$ per annum for the previous years as compared to current quarter average interest rate per annum of $4.125 \%$-for placements.

## 2009 VS 2008: 53.31\% decrease from PHP 5.26 Million to PHP 2.46 Million

There was a $53.31 \%$ decrease in net interest income derived from investments in Puyat Steel Corporation (PSC) on account of reduction of interest rate brought about by market forces and the partial liquidation/payment of accounts by PSC. Note that the investment agreement with PSC began last February 2008.

## EXPENSES:

2010 VS 2009: 298.73\% increase from PHP 1.84 Million to PHP 7.35 Million
$3^{\text {rd }}$ quarter of 2010 almost tripled as compared to previous quarter due to increase in salaries and wages, rental and utilities, travel and transportation and repairs and maintenance.

## 2009 VS 2008: 18.42\% decrease from PHP 2.26 Million to PHP 1.84 Million

Total Expenses during the third quarter of 2009 was lower than the expense level during the third quarter of 2008 due to the retroactive recognition of provision for depreciation in March to June 2008 which was only reflected in July 2008.

Given the above figures, income from operations for the $3^{\text {rd }}$ quarter 2010 as compared to $3^{\text {rd }}$ quarter 2009 was lower by $4256.90 \%$ brought about by great leap in expenses while income from operations for the $3^{\text {rd }}$ quarter 2009 was lower by $79.57 \%$ as compared to $3^{\text {rd }}$ quarter 2008 due to relative decrease in revenue by $53.31 \%$.

## EQUITY FROM NET EARNINGS OF ASSOCIATES:

2010 VS 2009: 73.47\% increase from a Loss of PHP 3.86 MM to Loss of PHP 1.02 MM
The $73.47 \%$ positive change in equity from net earnings of associates is due to change in the composition of investments in associates as opposed to the total shares in net loss of associates for the 3rd quarter of 2009 which is inclusive of loss by BellTel Co.

The computation for current quarter equity in net earnings of associate:

## OTHER COMPREHENSIVE INCOME / (LOSS):

2010 VS 2009: $175.02 \%$ increase from a loss of PHP 0.399 MM to income of PHP 0.299 MM
As per Philippine Accounting Standard 1: Presentation of Financial Statements, the preparation of Income Statements (now denominated as Statement of Comprehensive Income) should include the presentation of comprehensive Income or loss by the company. Comprehensive Income or loss pertains to the market increment or decrement in value of financial instruments held by the company as well as the share in changes in value of instruments held by associates.

The movement in comprehensive income of 3rd quarter 2010 from 3rd quarter of 2009 is not so significant as to influence the total comprehensive income or loss generated. The main factor will still be the revenue earned.

The $175.02 \%$ movement in recognized comprehensive income from the 3rd quarter 2009 to the 3rd quarter 2010 is brought about by the increase in market value of Petron and Aboitiz shares.

2009 VS 2008: $42 \%$ increase from loss of PHP 0.688 MM to a loss of PHP 0.399 MM
This is due to the decrease in market value of available for sale investments and available for sale shares of associates.

## NET INCOME / (LOSS) FOR THE QUARTER:

2010 VS 2009: 143.29 \% increase from a loss of PHP 3.25 MM to income of PHP 1.41 MM
Due to the $298.77 \%$ increase in the revenue earned for the $3^{\text {rd }}$ quarter of 2010 , the company earned a $143.29 \%$ increase in net income due to decrease in loss recognized from equity sharing in associates.

2009 VS 2008: $135.89 \%$ decrease from income of PHP 9.06 MM to loss of PHP 3.25 MM There is $135.89 \%$ decrease in net income of $3^{\text {rd }}$ quarter 2009 as against $3^{\text {rd }}$ quarter 2008 due to the recognized negative figures for share in equity of associates.

The increase in EBITDA as of the period ending Sept. 2010 as against the period ending Sept. 2009 is mainly due to interest income earned from placements made in the bank.

## Results and Plans of Operation 3rd QTR 2010

## SC-41 Offshore Sulu Sea Sandakan Basin

Service Contract No. 41 ran the full length of its exploration period extending exploration activity to ten (10) contract years. Operator, Tap Oil, drilled a well in 2008 and undertook extensive seismic processing and re-processing of the 3D seismic data in 2009 to 2010.

The SC-41 group was given until August 10, 2010 to decide to whether or not to extend the SC by another year. Given that the next phase of the service contract would have included a work program commitment to drill an exploratory well by May 2011, it was concluded that a well was not appropriate in light of the tight schedule and a pending Philippines Energy Contracting Round.

The operator was not able to secure an appropriate farmout due in part to the tight time frame of the work program and made the decision to relinquish SC-41prior to incurring the well commitment.

The SC-41 group views the area as still having prospectivity and may pursue exploration in the future with an appropriate work program to address the technical risks. Agreement on the
composition of the new joint venture would be discussed in advance of making any application over the area, with the intent that existing partners would participate.

South China had $1.090 \%$ paying participating interest in this block.

## SC-60 (GSEC-99 Offshore NE Palawan)

South China, Shell Philippines Exploration B.V. and Kuwait Foreign Petroleum Co. ksc. entered the second sub-phase of SC-60 in July 8, 2008. The objective is to continue and further the exploration of the block with a commitment to drill one well during the sub-phase.
The Silangan-1 well was spud-in on July 20, 2010 and was the first deep water drilled in the area. This well was under the second sub-phase of the service contract and South China was carried on this well.

The well was plugged and abandoned without encountering significant hydrocarbons.
Operator, SPEX, is reviewing the well data to determine the cause of the unexpected results of the well and therefore identify appropriate next steps over the area

South China retains $15 \%$ interest in the block and will be a paying partner after the first well.

## SC-71 (formerly Area 4 Offshore Mindoro-Cuyo)

On April 1, 2009, South China, Pitkin Petroleum, and the Department of Energy signed Service Contract No. 71 (SC-71). SC-71 covers the Cuyo/Mindoro/East Palawan region.

The operator, Pitkin, is conducting geological and geophysical assessment of the block. The joint venture completed comprehensive reprocessing of over 3000 line kms of 2D seismic data over the area. Interpretative assessment is ongoing. The first sub-phase of work was extended to April 1, 2011 as per advice by Pitkin.

South China has $15 \%$ participating interest in SC-71 and is carried in the first sub-phase.

## PROPERTY ACQUISITION

As previously disclosed, South China completed, last July 28, 2010, the purchase of the 24,022.90 sq.m. parcel of land located at the East Service Road of South Superhighway, Brgy. Buli, Muntinlupa City, Metro Manila at a purchase price of P312, 297,700.00.

In the Company's history, it had made good in investments in real estate property, primarily the property investment in Pilipinas Plaza which the Company sold for a profit in January of 2007. It is in this manner that the Company employed the proven business model of acquiring property investments along major and strategic thoroughfares.
